May 2025 Prepared for:

#### **AN INITIATIVE OF**

## **Project Background**

Hotels are more than just places to stay – they are pillars of community vitality and service.

Hotel Caring is an initiative led by the California Hotel & Lodging Association (CHLA) to showcase the positive social impact the industry has on local communities. As a research partner with CHLA, Tourism Economics conducted the research and analysis.

The project is intended to highlight all the philanthropic activities carried out by hotels.

This report presents results from the study carried out to scan and map out a portion of the philanthropic activities carried out by hotels in the state of Massachusetts.

## **Methodology and Data Sources**

A survey of hotel operators was the primary form of data collection. The survey was followed by direct communications with the hotel respondents to complete missing data items and confirm/validate the data submitted.

The survey was in the field for an eight-week period starting January 6<sup>th</sup>, 2025.

Philanthropic activities covered in the survey included cash or in-kind contributions, fundraisers, food/supply drives, employee initiatives, refugee support, and training. Specific details such as hours of volunteering or number of room nights donated were requested.

calculating the following:

- 1. The average contribution per hotel 2. The median contribution per hotel
- 3. The share of hotels within a specific bracket of giving (e.g., percentage of hotels that provided inkind donations within each defined range)

Based on hotel size and the share of hotels participating in each type of giving, estimates of total giving, by category, were extrapolated for Massachusetts.

- For each category of giving, the analysis relied on

# Types of Giving

The most common type of giving among hotels in Massachusetts is volunteering/community service. This is followed by in-kind donations and fundraisers.

## **Social Impact Analysis Approach**

To estimate the size of philanthropic contributions by hotels in Massachusetts, Tourism Economics designed a model to extrapolate the total amount based on hotel size and the share of hotels participating in each type of giving.

A conservative assumption – based on the distribution of hotels by class – was made to adjust for potentially lower levels of typical giving among non-respondent hotels.

The results on the state level are presented in this section by type of giving.

### **About MLA**

The Massachusetts Lodging Association (MLA) stands as a unified voice for the lodging industry within the Commonwealth. Formed in 1992 through the merger of the Massachusetts Hotel/Motel Association and the Greater Boston Hotel Association, the MLA's core mission is to champion the business environment and overall image of hotels, motels, resorts, inns, and bed and breakfasts across the state. The association actively engages in legislative efforts at the local, state, and federal levels to advocate for favorable policies that support the growth and prosperity of the travel and leisure sector in Massachusetts.

Beyond advocacy, the MLA is dedicated to the professional development of its members and the wider hospitality workforce. Through its Education Foundation, the association provides a range of educational resources, including coursework, internships, seminars, and workshops, aiming to cultivate a qualified and skilled workforce. Furthermore, the MLA offers valuable networking opportunities, allowing members to connect, share insights, and foster collaborations within the industry.

The MLA offers various membership levels for both property owners and industry partners, such as management firms and students. Membership benefits extend beyond advocacy and education, encompassing marketing and legal resources, as well as strategic partnerships. By promoting the travel and leisure industry and providing essential support to its members, the Massachusetts Lodging Association plays a crucial role in the vitality of the Commonwealth's hospitality sector.
